One event at (0.6, 0.3) m, E = 2 MeV, simulated three times with the same seed
t_0 = 0 ns
t_0 = 4 ns
t_0 = 9 ns
Recorded times: shifted by t_0
Mean hit time τ_j [ns]
Sensor j
Relative times: identical (largest difference 10^{-6} ns)
Relative time $\tau_j - \bar{\tau}$ [ns]
Sensor j
